

Access Library Databases From Your Home or Office James E. Lovan Library

Access library databases from off-campus without passwords by using your DeVry student e-mail account. **Some users may need to temporarily lower the privacy and/or security settings on their software firewall.**

1. Go to: <http://acad.kc.devry.edu>
2. Log in the same information you use to access your lab account.
3. Click on Click here for Online Library Resources.
4. The links take you to the information you need to access databases.

This is made possible through the efforts of the DeVry Kansas City IT Department.
